

Dr. Babasaheb Ambedkar Technological University

Department of Computer Engineering

ATA India Fellowship

ATA Freight Line, US Based multinational company operating in the logistics industry, has constituted THREE numbers of PhD fellowships in the Department of Computer Engineering. Under this fellowship program, the selected candidates will be paid Rs. 30,000/- PM during the First and Second year and Rs. 35,000/- PM during third year of Ph. D. program. The performance of Ph. D. candidates will be reviewed after every six months for the continuation of fellowship.

Hence, applications are invited from highly committed and motivated students to pursue **Full-Time PhD Program** in **Computer Engineering** under ATA-India fellowship program

The candidates must have passed M. Tech/M. E. in Computer Engineering in First Class from nationally reputed institute or Govt. Engineering Colleges. Candidates applying for the fellowship program must have a strong background in *Software Architecture, Machine Learning, Artificial Intelligence, Information Security, Distributed Systems and diverse programming skills*. Candidates with prior research publication record or industrial experience and without any other professional/personal commitments will be given preference.

The selection of candidates will be carried out in two stages. In the first stage of selection process, desirous candidates need to appear for written test and an interview as advertised by the University's earlier notification dated **4th Dec. 2017**. The choice of availing the ATA Fellowship will be asked on the date of admission test. Hence the PhD positions in the department are modified as below:

Full time	Three(3)
Part-time	One(1)

Candidates are asked to fill up the type of admission as PART-Time in on-line form which can be changed to full-time on the date of admission test. All the candidates need to strictly follow the instruction issued by university's admission authority.

The candidates shortlisted through university's admission process will be further interviewed in second stage by an expert team of ATA-India.

All the applicants are requested to report to Head, Department of Computer Engineering by **9.00 AM on the admission date notified by university.**
