

Procurement plan TEQIP III

Packages Completed till April 2019

Sr.No.	Name of the Item	Department	Procurement Method	Cost in Rs.	Purpose
1	Hydrogen Gas Generator	Chemical Engg	Shopping	540440	To be used in Gas Chromatograph
2	Data Science Lab	Computer Engg	shopping	394012	Useful software for Data Analytic, Data mining, Data optimization function using explicit time
3	Fiber Slicing and OTDR Machine	Computer Engg	shopping	542800	Useful for identifying the problems in fiber connectivity and then for patching up of the cut fibers.
4	Probe Sonicator	Petro-chem.Engg	shopping	237003	For homogeneous mixing of chemical preparation of emulsion in experiment and project work
5	Surface Roughness Tester	Mechanical Engg.	shopping	137057	To measure the roughness values of the machined surfaces in research lab
6	Rotary torque sensor	Mechanical Engg.	shopping	46964	Useful in research in Bio-Mechanics Lab
7	High Voltage Supply Unit	Mechanical Engg.	shopping	245400	Useful in research in Bio-Mechanics Lab
8	Sensor Display	Mechanical Engg.	shopping	25370	Useful in research in Bio-Mechanics Lab
9	Electrical Machine open lab	Electrical Engg.	shopping	1947000	Useful for projects in Electrical Machines and Research
10	E Books (Pearson)	Library	Direct Contract	525971	To Improve the E-learning facilities in library for students and staff faculty.
11	E books TMH	Library	Direct Contract	604096	To Improve the E-learning facilities in library for students and staff faculty.
12	E books of PHI	Library	Direct Contract	257430	To Improve the E-learning facilities in library for students and staff faculty.
13	Smart Class Room	Computer Engg and IT	shopping	357849	To improve the Teaching Learning Process.
