			On-Job-Training (OJT)/Qualification Packs (Any One)							
7	BVIDE117	Design Supervisor - Wooden/modular Furniture FFS/Q0108 or Any Allied skill Sector Council Qualification Pack /Job role - NSQF level 5,6,7	200						9	150
Total									18	300

SEM-I

Total Subjects : 07 (6 + 1 OJT)

Total Credits : 30

Total Marks : 500

THEORY: In Internal Assessment Marks= Sessional Work + Attendance+ Assignments
End Semester Marks= Theory Paper Marks

PRACTICAL: In Internal Assessment Semester Marks= Attendance+ Term Work
End Semester Marks= Practical + Oral

Abbreviations: L: Lecture Hours, T : Theory Hours, S: Studio Hours, P: Practical Hours, OR: Oral, IA: Internal Assessment
ESE : End Semester Exam

Assessment of PR / OR / TW:

- 1) All orals and practicals are to be assessed by external & internal examiners.
- 2) All TW are to be assessed by internal examiner only.

Semester II

Sr. No.	Course Code	Name of the Course	Teaching scheme			Evaluation Scheme			Credits	Total Marks

Assessment of PR / OR / TW:

- 1) All orals and practicals are to be assessed by external & internal examiners.
- 2) All TW are to be assessed by internal examiner only.

Semester

I

Syllabus

Subject Name: Interior Construction -1		
Course Code : BVIDC101		Semester: I
Weekly Teaching Hours: TH: 02 ST: 3		Scheme of Marking TH: 25 IA: 25 Total: 50
TH Exam Duration: 03 Hours		Scheme of Marking PR: --
Credit :03		
Objective: To introduce basic materials used in construction, basic components of a building and method of construction and representation of the same.		
Content		Hours
Unit – I	1.0 Building components:	05
	Building Terminology, Building components, its characteristics and behavior. Relationship between building components& building material.	
Unit – II	2.0 Walling Systems:	10
	Brick walls for interior division of spaces and other uses (half brick and one brick thickness). Light weight concrete blocks, hollow blocks, aerated concrete blocks.	
Unit – III	3.0 Joinery:	10
	Introduction to joinery and joints, limitations and applications.	
Unit – IV	4.0 Openings:	15
	Doors, windows, ventilators with focus on different modes of operation and their jamb linings. Types of Lintels and Arches based on structure and materials. Structural glazing	
Unit – V	5.0 Doors and Windows:	20
	Types based on mode of operation, material and positioning.	

Reference/Text Books		
Name of Authors	Title of the Book	Publisher
Bindra, S.P. and Arora, S.P.	Building Construction: Planning Techniques and methods of Construction,	Dhanpat Rai Pub.,
Moxley, R. Mitchell" s	Elementary Building Construction,	Technical Press Ltd.
Rangwala, S.C.	Building Construction	Charota Pub. House
Sushil Kumar.	T.B. of Building Construction	Standard Pub. Delhi

Name of the Subject : Interior Drawing and Graphics - 1		
Course Code : BVIDC102	Semester: I	
Weekly Teaching Hours: TH: 02 ST: 03	Scheme of Marking TH: 25 IA: 25 Total: 50	
TH Exam Duration: 03Hours	Scheme of Marking PR: --	
Credit :03		
Objective: To introduce students to technical drawing methods and equipment , language of graphics i.e. vocabulary and grammar enabling students to express simple three dimensional objects by developing their skill for communicating graphically objects so as to later adopt the same for depicting buildings and building components.		
Content		Hours
Unit – I	Familiarization of equipment and recapitulation: Ability to handle and use various drawing instruments and media for technical drawing and sketching. Introduction to graphic language and its components viz. Line types; meaning and application, lettering , use of various metric scales, conventions ,standard annotations and format .Principles of plane geometry and geometrical constructions .systems of measurement MKS and FPS.	10
Unit – II	Understanding scales: study of scales, their use in practice and construction of plain and diagonal scale. Concept of enlargement and reduction of objects.	10
Unit – III	Introduction to orthographic projections : The concept of representing objects and elements of drawing such as point , line , planes and simple regular geometric forms / 3 dimensional objects as plan/s section/s and elevation/ learning the basics of drawing orthographic projections for simple combinations of point , line , planes and solids primarily as first angle projections and or third angle projections.	10
Unit – IV	Orthographic projections: Drawing Orthographic Projections of simple and complex solids based on geometrical constructions , either single or in combinations.	10
Unit – V	Understanding and drawing views: learning the basics of drawing isometric views and Axonometric projections for representing various simple and complex geometrical shapes and forms and rendering the same to understand materials .	10
Unit – VI	Development of Surfaces :Introduction to development of surfaces and its uses Methods of development of surfaces. Development of lateral surfaces of simple solids as cube, cone, pyramids and prism. Development of complex solids, when two or more simple solids are joined together.	10

Subject Name: Interior Materials & Products -1		
Course Code :BVIDC103		Semester: I
Weekly Teaching Hours: TH: 03 Tut: 00		Scheme of Marking TH: 25 IA: 25 Total: 50
TH Exam Duration: 02 Hours		Scheme of Marking PR: --
Credit :3		
Objective: To give an overview of the basic materials those are used in Interior and Architecture with reference to the material properties, feasibility, availability, durability and sustenance to climatic conditions.		
Contents		Hours
Unit – I	Materials - Clay, brick, stone their physical and behavioral properties, process of manufacture, tools and techniques of application to built form and interiors.	06
Unit – II	Material – Sand, cement, aggregate, mortar, concrete. Process of manufacture, in situ reinforced cement concrete construction, physical and behavioral properties, application in built forms and interiors.	06
Unit – III	Cane and bamboo, tools and techniques of joinery, application to built forms and interiors.	06
Unit –IV	Timber: classification of trees, characteristics of good timber, defects in timber, seasoning of timber, uses in building construction and interiors. Commercial forms of wood-plywood, block board, particle board and other products available in the market	06
Unit – V	Laminates: Properties and application of all types of plastic laminates. Manufacturing process and preservation and maintenance of laminates. Types of Laminates etc.	06
Unit – VI	Metal : The application of various metals in interiors and various finishing options like electroplating, enameling, buffing, etc. Metals such as Cast iron, Wrought Iron, Steel, Mild Steel, Stainless Steel, Aluminium, Brass, Copper, Zinc, Lead Alloys, Bronze.	06
For all the above mentioned materials a basic understanding of the market research and current trend analysis will be cumulated through Market Research and Presentations by students there upon.

Objective :To create awareness of History as an aid to design process	

Content		Hours
Unit – I	<ul style="list-style-type: none"> • Introduction to furniture history. Evolution of furniture over a period based on climate, social factors, life style, technical and stylistic development availability of materials and various movements in design. • Introduction to furniture terminology based on methods of joinery techniques such as parquetry, marquetry gilding, turning, pierced and chip carving, ormolu mounts. 	06
Unit – II	<ul style="list-style-type: none"> • Ancient civilization, art, architecture of Egypt. Furniture preserved in ancient pyramids. • Ancient classical orders developed by them and various methods to overcome optical illusion. Furniture developed by Greeks and Romans by 3rd century A.D. 	06
Unit – III	<ul style="list-style-type: none"> • Medieval era in Europe, utilitarian furniture developed from Romanesque till Gothic times. Gothic cathedrals preserving art, manuscripts, furniture, paintings, sculptures, stain glass. • Beginning of Renaissance-second golden era in Europe, age of discovery. Renaissance furniture of Italy and France. 	06
Unit – IV	<ul style="list-style-type: none"> • Baroque and Rococo furniture of 17th century Europe. • Neoclassical and Regency period in history of furniture-18th century • Prominent names in the field of Architecture, sculptures, paintings international and Indian 	06
Unit – V	<ul style="list-style-type: none"> • Study of architectural elements in interiors in India from Mughal period onwards such as doors, windows, pillars, columns, staircases, fireplaces, paneling, dado, frieze, architectural decoration, study sketches and creative designs. 	06
Unit – VI	<ul style="list-style-type: none"> • Architectural characteristics of Buddhist, Hindu and Muslim with special emphasis on decoration, ornaments. • Chinese and Japanese interior and furniture. 	06

Content

Objective :

- Basic design defines the base of design aspects, in terms of design elements and principles that are generically applicable to any design stream including interior design.
- The subject aims at developing observational and creative skills that would enhance the visual perception of students and evolve aesthetic sensitivity.

Content :

The course content would be developed by individual colleges in accordance with their time frames. The scheme would include visual studies primarily applicable to graphic, product, furniture design, art and architecture etc., with special emphasis on study of forms, colours, light, textures, and similar visual elements.

Evaluation :

Continuous assessment of sessional work may consist of sketches, drawings, study models in various materials, journals, visit reports, power point presentations etc.

Syllabus as approved by Skill Sector Council	

***Skill Practical assessment will be done rules/ procedure of respective Skill Sector Council of India.**

Semester

II

Syllabus

Subject Name: Interior Construction -2		
Course Code : BVIDC201	Semester: II	
Weekly Teaching Hours: TH: 02 ST: 3	Scheme of Marking TH: 25 IA: 25 Total: 50	
TH Exam Duration: 03 Hours	Scheme of Marking PR: --	
Credit :03	Semester: I	
Objective: To equip the learner with various systems of partitioning and paneling with appropriate means of construction, assembly and joinery through detailed working drawing and to make student aware of future trends in furniture design.		
Content		Hours
Unit – I		10
	Partition Systems: Wooden framed fixed partition with single/double skin, Aluminium framed Partition, Dry wall partition systems, Full glass partition with architectural hardware.	
Unit – II		10
	Wall Cladding and Paneling: Wet and Dry wall cladding in different materials, Wall paneling in different materials.	
Unit –III		05
	Modular furnitures: Introduction to modular furniture, analyzing the need and criteria for selection, materials used and constructional details.	
Unit – IV		15
	Modular Kitchens: Basics of kitchen furniture. Kitchen triangle. Details of construction of modular kitchen . joinery details etc.	
Unit – V		20
	Modular Residential and commercial furniture units, details and manufacturing etc.

Objective: To understand and practice the application of the various techniques of perspective, sciography, CAD and advanced presentations in Architectural Design.	

Content		Hours
Unit – I	Views : 3D representation of Solids, Isometric views, Axonometric Views Oblique Views	10
Unit – II	Perspective Drawing: The topic of perspective drawing will consist of drawing exercises on: <ul style="list-style-type: none"> • Understanding the application of principles of perspective drawing. • Drawing perspective views by one point and two point perspective methods. • Perspective by measuring point method. • Perspective views of interior designs by projection / measuring point method. 	10
Unit – III	Sciography: The topic of sciography drawing will consists of drawing exercises on <ul style="list-style-type: none"> • Principles of shades and shadows. • Drawing shades and shadows of lines, planes, solids and architectural features in plan, elevations and isometric view • Shades and shadows of typical building on plan, elevation and perspective. 	15
Unit – IV	Rendering Techniques for perspectives, Rendering using various mediums such as Pen and Ink, Water colour, Poster Colour, Pencil Colour, Crayons	15
Unit – V	Presentation Drawings: Complete presentation drawings of architectural design project with plans, elevations, sections and perspective views of building by any method of drawing perspectives showing landscape, human figures, accessories and street furniture etc.	10

Objective: To give an in-depth knowledge and understanding of the materials that are used in Interior and Architecture with reference to the material properties, feasibility, availability, durability and sustenance to climatic conditions and also the aesthetic value it will add with its use.		
Content		Hours
Unit – I	Basic Building components: Elementary knowledge of different components.Study of constituents, properties and uses of different building materials	06
Unit – II	STONES: Various types, their properties and uses in interior of various types such as offices, residences, restaurants, shops, etc. BRICKS/TILES : Qualities of various buildings, types of bricks and their uses in various types of interiors. Clay products- tiles, terracota, ceramics - uses and application.	08
Unit –III	DECORATIVE TILES : Various types - ceramic, glazed, vinyl tiles, their Properties and use.	04
Unit –IV	PLASTERS : Different types of plaster finishes - neeru, sand, faced, rough cast, pebble - dash, gypsum their defects & repairs, various mixes used in plaster curing and finishing of plaster, Mud plaster, ingredients, advantages and disadvantages of special materials used in Plastering, Plaster of Paris, barium, gypsum, etc.	06
Unit – V	Glass: Types and Manufacturing of glasses.Treatments on glass.Glass in building industry. Interior use of glass. Properties, sizes, design, price and availability of : Sheet, Plate, Wired, Laminated, Safety, insulating, coloured, tinted, heat resistant and glass blocks.	06
Unit –VI	THERMAL ACOUSTIC MATERIALS : Study of different types of materials used for sound proofing. Properties and use of the following : Polyurethane products such as low density and high density, fiber glasses.	06

Lab/ Practical- Interior Design Studio - 2

Course Code :BVIDL205	Semester:I
Weekly Practicals: ST: 10 Tut: 00	Scheme of Marking TH: --
TH Exam Duration:--	Scheme of Marking PR: 60, IA: 40, Total: 100
Credit:6	

Content

Objective :

In this semester the learner is expected to enhance their skills by application of design concept and/or theme to residential interior space and small retail space by understanding the usage of basic materials and construction.

Contents :

- Designing a medium size residential spaces (Master Bedroom not less than 18.00 sq.mts with Attached Toilet not less than 5.00 sq.mts & Childrens Bedroom not less than 18.00 sq.mts).
- Study and application of anthropometry, ergonomics, design principles and components related to retail spaces. The design exercise may include small retail spaces such as Garment Boutique, mobile stores, Accessories store, small Café etc. (not exceeding 30.00 sq.mts.)
- All specified areas are Carpet Areas.

Evaluation :

Continuous assessment of sessional work may consist of sketches, scaled drawings study models in various materials, case studies, visit reports, power point presentations etc. Design portfolio should consist of Project Brief, Client profile, Theme Sheet, Measurement Plan/, Furniture Layout Plan/ Flooring Layout/ Reflected Ceiling Layout/ Basic Electrical Layout, Sectional Elevations.

Lab/ Practical- Communication Skill

Course Code :BVIDL206	Semester:II
Weekly Practicals: ST: 02 Tut: 00	Scheme of Marking TH: --
TH Exam Duration:--	Scheme of Marking PR: 25, IA: 25, Total: 50
Credit: 3	

Content

Objective :

To enhance verbal and non verbal communication skills of students with an intension to improve the skills of reading and writing, language and conversational ability in various mediums such as presentation (written - graphics and audio) face to face etc. To enable the student to ultimately explain / defend his/her design to single person or panel.

Contents :

- | | |
|---|--|
| <ul style="list-style-type: none">• Interpersonal skills• Analytical writing skills• Business writing skills• Technical writing skills• Personal grooming and confidence building• Debates, Skits, Group discussions | <ul style="list-style-type: none">• Voice culture, vocalic and body language• Analysis and describe interior work carried out any professional designer.• Preparing and presenting verbal explanation on his own design and concept.• Review of design related articles.• Debates, discussions |
|---|--|

Evaluation :

Continuous assessment of sessional work may consist of evaluation of individual's writing and presentation skills, project work, power point presentations etc.
