

## Dr. Babasaheb Ambedkar Technological University, Lonere

### Technical Book Translation in Marathi

#### (Google form links)

AICTE has signed an MOU with Dr. Babasaheb Ambedkar Technological University for its **Technical Book Translation** activity. Dr. Babasaheb Ambedkar Technological University is a Nodal centre for translation of second year and third year engineering (UG and Diploma books) in Marathi.

Translating technical books under NEP 2020 is a vital step in making education more inclusive, accessible, and high-quality across India. It supports the goals of multilingualism, improves the quality of learning, bridges knowledge gaps, and ensures that all students, regardless of their linguistic background, have access to the best educational resources in technical fields.

The translation of second and third-year engineering technical books into Marathi is currently underway. We are constantly looking for passionate faculty members with a strong command of both Marathi and English, who are eager to contribute to the translation process. This project requires extensive expertise, and we invite aspiring individuals from across Maharashtra to join us in this important initiative.

We are inviting applications from translators and reviewers for this initiative. Both current and retired faculty members are welcome to apply for the translation or review process by filling out the Google Form at the following links:

Second Year: <https://forms.gle/2h2gqhVu6nTzPB167>

Third Year: <https://forms.gle/wagVBAQrEb8SERmA7>

List of the Book titles can be seen in the Google form itself. Several key parameters are considered when selecting translators or reviewers, including a sample file translation. Once selected, the work will be assigned to the faculty member, with a timeline of two months given for the completion of the book translation or review. In case of reviewer role, he/she must maintain communication with the Translator, conduct weekly follow-ups on completed translation work, and ensure the review process is completed according to the norms which will be communicated in mail after selection.

Dr. Babasaheb Ambedkar Technological University may assign one or more translators to a single book. The decision of DBATU regarding the assignment or removal of translators or reviewers, depending on quality of the translation work, will be final.

Dr. S. L. Nalbalwar  
Coordinator, Technical Book Translation,  
Dean(Academics – FoET), DBATU
