As per directions from Higher and Technical Education Department, Maharashtra (No. Sankirna-2026/E-1649615/vishi-5 dated 25 th May 2026), the University will not accept any proposal for Affiliation to new B. Pharmacy institution.

Table shows :

- Districts exhibit population growth between 2021 and 2029, with some districts like Pune, Mumbai Suburban, and Thane showing substantial increases.
- Mumbai Suburban and Pune are projected to exceed 12 million in population by 2029.
- Proposed ratios for colleges per million: 2 (Engineering), 3 (Pharma), 1 (Architecture), 1 (HMCT).
- Engineering and Pharma colleges are most common across districts, while HMCT and Architecture are less prevalent.
- Smaller districts like **Sindhudurg**, **Washim**, and **Gadchiroli** have minimal existing infrastructure and limited growth in proposed colleges.
- Urbanized districts like Mumbai Suburban and Pune dominate in both existing and proposed counts, highlighting the urban-rural divide in educational infrastructure.
- **For Architecture and HMCT institutes** Limited distribution; most districts have fewer than 2 colleges each for these categories, even in 2029 projections. There is need of increasing the institutes having these courses.
- Districts like **Nagpur**, **Aurangabad**, and **Nanded** show a gap between existing infrastructure and

the expected ratios, suggesting targeted proposals for expansion.

The university can permit the new programs in emerging areas in the existing colleges in most of the districts so as to improve GER from 30 % to 50 % up to 2035 as per NEP guidelines.

Additionally, it is proposed to follow the following guidelines based on geographical locations while permitting new institutes in the coming years.

Sr. No	Classifications	Distance between two Colleges
1	Metropolitan City	2 kms
2	Municipal Corporation	5 kms
3	District level	8 kms
4	Rural area	20 kms
5	Hily and Backword region with low GER region	15kms

However, in order to enhance the GER it is proposed to encourage institutes to start new programs in Emerging areas as per the availability of resources and demand of the areas.
